Shasta Land Services
and
University of California,
Cooperative Extension

Water Measurement and Reporting Course

Senate Bill 88 requires that all water right holders who have previously diverted or intend to divert more than 10 acre-feet per year (riparian and pre-1914 claims), or are authorized to divert more than 10 acre-feet per year under a permit, license, or registration, to measure and report the water they divert. Detailed information on the regulatory requirements for measurement and reporting is available on the State Water Resources Control Board [Reporting and Measurement Regulation](#) webpage.

The legislation as written requires for diversion (or storage) greater than or equal to 100 acre feet annually that **installation and certification** of measurement methods be approved by an **Engineer/Contractor/Professional**. Diverters across CA were concerned about this requirement. California Cattlemen's Association heard from their membership and worked with Assemblyman Bigelow on a bill that would result in a self-certification option. Assembly Bill 589 was passed and became law on January 1, 2018.

This bill, until January 1, 2023, allows **any diverter**, as defined, *who has completed this instructional course on measurement devices and methods administered by the University of California Cooperative Extension*, including passage of a proficiency test to be considered a qualified individual when installing and maintaining devices or implementing methods of measurement. **The bill requires the University of California Cooperative Extension and the board to jointly develop the curriculum for the course and the proficiency test.**

At the workshop you will :

- Clarify reporting requirements for ranch
- Understand what meters are appropriate for different situations
- Learn how to determine measurement equipment accuracy
- Develop an understanding of measurement weirs
- Learn how to calculate and report volume from flow data

These trainings will move fast and will include a proficiency test. Bring a clipboard and a hand calculator. We encourage family/staff members attendance.

Registration is required. Northeastern California Water Association member costs are covered. There is a fee of \$20 for non-members.

DATE: Tuesday, March 20 2018
TIME: 1:00-4:00 pm
LOCATION: Shasta Livestock Auction Yard
3917 N. Main Street
Cottonwood, CA 9022
